

Standard 2.15

Oral and Dental Care

Expected Outcome: Residents' oral and dental health is maintained.

Do your staff know what is required?
Is your facility handling this critical area effectively?
Are your staff able to assist residents - correctly?
Could you **demonstrate** that oral and dental health concept are understood by your staff?
What education program have you used to achieve this?

*We all know how to brush teeth, don't we? We have done it all our lives.
There is no need for special training?
Residents don't have teeth so they don't have problems?*

WRONG - WRONG - and WRONG again.

*Correct dental hygiene is critical for
good quality of life at any age.*

Professional Competence with a Caring Attitude

NOW -

A simple and easy to follow video complete with self learning format that will allow all your staff to gain vital knowledge at minimal time and financial cost.

This learning package will:

- ♦ Easily be incorporated into orientation programs
- ♦ Allow staff to view and complete in a timeframe of their convenience
- ♦ Enable training to reach ALL staff including those unable to attend traditional in-house programs
- ♦ Form a basis upon which you may measure performance or competence in oral care
- ♦ Provide you with documentation to demonstrate that staff do know what is required.
- ♦ Provide truly cost effective outcomes.
Divide the number of staff into \$79.95 to determine a per head cost for this training. (e.g $\$79.95 / 25 = \3.20)

(Excluding time involved in photocopying of questions, viewing and answering questions).

Complete Package including:

Video
